1

Basics

Introduction	1 3
Stages in Design and Commissioning	1 4
A Modular System	1 5
Module Interconnects	1 7
Interconnect Types	1 11
Time Schedule Supervision	1 12
Master Zones & Slave Zones	1 14
Occupancy Demand	1 16
Occupancy Supervision	1 18
Override	1 20
Setpoint Supervision	1 23
Heat Demand: Cool Demand	1 24
Control Demand	1 25
Submodule Interlock	1 26
Intelligent Sensors	1 27

2

Heating Systems

Boiler Controls	2 3
Primary Pumps	2 5
Boiler Control - No Housekeeping	2 6
Modulating Boilers	2 7
Boiler Status Monitoring	2 8
Additional Status Monitoring	2 9
Flue Dilution Fans	2 10
Secondary Circuits	2 13
Sub Zones	2 21
Domestic Hot Water Control	2 25
Direct Space Heating	2 31
Examples Wet Heating	
1 2 Boilers, 1 Zone	2 33
2 Multiple Boilers, Multiple Zones	2 39
3 Multiple Boilers, Multiple CT Circuits	2 45

3 Air Handling Units

General	3 1
Fresh Air Plant	3 6
Return Temperature Control	3 8
Supply and Return Sensors	3 10
Variable Supply Temperature Control	3 12
VAV Plant	3 13
Reheat Terminals	3 14
Slaving AHU's	3 16
AHU Submodules	3 19
Extract Fans	3 35
AHU Extract Fans	3 36
Non AHU Extract Fans	3 37
Toilet Extract	3 38
Examples - AHU Systems	
1 Fresh Air Plant	3 41
2 Return Air Control	3 47
3 Large Building AHU's	3 53

4 Terminal Units

General	4 3
Systems up to 100 Zones	4 4
Systems up to 200 Zones	4 6
Systems up to 1600 Zones	4 8
Fan Coil Controls	4 11
Inputs & Outputs	4 12
Energy Demands to Main Plant	4 14
Types of Control	4 16
Multi Speed Fan Coils	4 18
2 Pipe Changeover Fan Coils	4 20
Fan Coil Slave Mode	4 21
VAV Systems	4 23
Inputs & Outputs	4 24
Energy Demands to Main Plant	4 26
Types of Control	4 27
DX & Split Systems	4 29
Example	
1 Fan Coils	4 33

5

Cooling Systems

Chillers	5 3
Packaged Chillers	5 4
Condenser Water Systems	5 7
Secondary Chilled Water Circuits	5 11
Static Cooling	5 15
Heat Pump Systems	5 21
Example	
1 Large Building Cooling System	5 25

6

Monitoring & Alarms

Monitoring & Alarm Generation	6 3
Alarm Reporting	6 7
Pulse Counting from Utility Meters	6 11

7

System Design

Module Interconnect Ikons	
Key to Ikon Diagrams	7 3
Zone Controller Ikons	7 4
AHU Ikons	7 5
Boiler Ikons	7 7
Chiller Ikons	7 7
Secondary Circuit Ikons	7 8
Fan Coil and VAV Ikons	7 9
Hot Water Controller Ikons	7 10
Address Allocation	
Housekeeping Modules	7 11
Sub Modules	7 12
Network Design	7 13
Cable Types	7 15
Wiring	7 17
Power Supplies & Power Consumption	7 21
Examples	
1 Single Segment Systems	7 25
2 Multi Segment Systems	7 29
3 Multi Domain Systems	7 33

8

Commissioning

Registration Single Domain	8 3
Address Allocation	8 5
Submodule Registration	8 7
Registration of Module Interconnects	8 9
Registration Multi Domain	8 11
Address Allocation	8 12
Submodule Registration	8 14
Registration of Module Interconnects	8 15
Tips for Registering Large Systems	8 19
Re-Registration	8 21
Engineering Parameters	
Setting Configuration Parameters	8 27
Manual Override	8 28
Diagnostics	8 30
Stroke Time Set-Up	8 32
Zone Controller User Setting and Displays	8 33
Output Driver Types	8 38
Output Driver Configuration Parameters	8 46
Self Tuning Control Loops	8 52
Auto Configuration of Modules	8 53
Doorway Supervisor Codes	8 54
Commissioning Tips	8 57
Configuration Parameter Table	8 59
Thermistor Resistance/Temperature Table	8 65
